A value-owned bioelectric Body
Physical membrane law; illustrative cells, routing and parameters
A Membrane potentials (1 ms samples)
Membrane potential (mV)
Time (ms)
Skin sensory compartment
Brain sensory relay
Brain output relay
B Recorded threshold events
Brain output
Brain sensory
Skin sensory
Time (ms)
C Organ-labelled passive targets
Depolarization from baseline (mV)
Time (ms)
Heart
Lungs
Skin
Mouth
D Circuit controls and time refinement
Mouth target depolarization (mV)
Time (ms)
Connected, 0.05 ms
Connected, 0.01 ms
No connections
Higher brain leak
